The effect on our immune system starts at about 3h - that's why we have a drink on the way and a "wild" snack of local superfoods after the bath. (Duration 180 min.)

A genuine organic farmer welcomes you to his idyllic organic farm (approx. 12 km away) and briefly introduces you to the theory before you prepare the dough for your bread with the farm manager. While this is maturing, it's off to the fields and stables of the organic farm. After weighing, kneading and portioning, the next fermentation time explains what organic means, why organic is good for us and which seal is trustworthy here.
